## 33 YEARS WITH "LES TRIPLÉS"

BY NICOLE LAMBERT

ALLIANCE FRANÇAISE - LA GALERIE

FREE ENTRANCE

"Les Triplés" are the most cherished children of the French comic books world. They have been created by Nicole Lambert, a comics writer and keen observer of children. Since 1984, they are published every week in the French magazine Madame Figaro.

They have been the subject matter of more than 30 comic strip albums, sold over one and a half million copies and have also been adapted as an animated series for TV.

The Triplets live in Paris, next to the Eiffel Tower. They often take a bite out of their beautiful mother and are surrounded by their sweet grandfather and their philosophical French bulldog, Toto.

The Triplets can reach a double audience: Children, who enjoy their

foolishness and Parents, who can get emotional and recognize their own children.

The exhibition, which celebrates the 33 years of the comic's existence, will allow you to discover the best comic strips for each year. You will witness the changes throughout time in our society as well as the innovations which have changed our way of life: smartphones, computers, GPS are just a few examples.

As on a runway show during Paris Fashion Week, you will be able to admire the Triplets' mother fashion tastes. Finally, you will discover Nicole Lambert's sense of humour: more than a Parisian appeal, she shows us, on a deeper level, that children are all the same around the world.
